

HermanMiller
Verus™

Comfort and ergonomic support
at an attainable price

Verus

Verus redefines what an affordable work chair can be. Engineered to assure ergonomic alignment and support, it gives people both short-term and long-term comfort at an equally comfortable price. And with a quiet, versatile form, it flexes easily to any aesthetic.

Verus is guaranteed to work as hard as the people who use it: manufactured to our highest quality standards, Verus is backed by a 12-year, three-shift warranty.

Performance

Verus's built-in sacral reinforcement keeps the spine properly aligned, and options for adjustable lumbar support add comfort and stability for total spinal support. Verus's TriFlex™ back option offers ergonomic performance with even more durability: engineered flex patterning made from easy-to-clean polymer defines three ergonomic zones—sacral and lower lumbar, centerline spine, and upper scapula—to form, ventilate, and move with your body for a strong, comfortable fit.

Design

Verus has a versatile design that flexes easily to any workplace aesthetic. Its quiet form comes in a range of colors and fabrics and includes the option for a suspension, upholstered, or Triflex back.

Verus's Triflex back option is made from durable, easy-to-clean polymer that excels in any work environment—office, learning, or healthcare.

Verus's built-in ergonomic support comes in three different back options: Triflex, suspension, or upholstered.

Materials

Verus Chairs are available in a variety of textiles and base finishes.
